THE ØRN BOOK **OF WORKWEAR**

ØRN exists to make outstanding workwear. Using higher quality fabrics that are responsibly sourced and better made, we design and manufacture workwear that is more sustainable for the planet, more ethical for our customers and better quality for our wearers.

The inspiration to create workwear of the highest quality stems from the Scandinavian pioneers who prioritised functionality, comfort and durability in their workwear. ØRN has always drawn strength from these ideals as well as their dedication to ethical and sustainable practices. Therefore, enveloping our brand with the Scandinavian term ØRN meaning "eagle" commits our dedication to the strength and vision of excellence in design, rigorously testing our garments to ensure they are practical, long-lasting, and of unmatched quality.

INTRODUCING THE ØRN WORKWEAR COLLECTION

We would like to thank our customers, suppliers and partners for your generous loyalty and partnership with ØRN. Together, we strive to reach new heights in workwear excellence. Our commitment to you is embodied in our ØRN Promise - delivering on stock, quality and service, every time.

Not only does our brand represent excellence, your customers will feel the difference when wearing ØRN. Our garments look better, feel better and wear better over time.

As well as everyday best sellers such as the Eagle Poloshirt, this catalogue features the EarthPro® Recycled Collection, the most sustainable collection of garments we have ever made.

THE EARTHPRخCOLLECTION

Certified by Control Union CB-CUC-1050913

ØRN IS CERTIFIED TO THE GRS - GLOBAL RECYCLED STANDARD, WHICH VERIFIES RECYCLED CONTENT AND TRACKS IT FROM SOURCE TO THE FINAL PRODUCT.

As the demand for recycled product increases, ØRN has committed to an internationally recognised, independently verified certification process to ensure the integrity of its sustainable products. Certification is a means to confirm that the levels of social and/or environmental performance claimed for a product are correct and verified by an external party.

Third party certification is considered one of the strongest ways to ensure the integrity of supply chain and sustainability claims. By using this system, an independent third party gives assurance that a company, process, or product is compliant with the requirements of a particular standard.

POST-CONSUMER RECYCLED POLYESTER

Plastic is collected from the seas, rivers and landfill.

Plastic is shredded into Flakes.

Flakes are melted into pellets.

Pellets are extruded into yarn.

The Recycled Polyester is then made into garments.

TEXTILE RECYCLING PROGRAMME

Our EarthPro® collection is made using recycled waste plastic and our commitment to sustainability extends well beyond just the manufacturing of the garments. We will recycle any EarthPro® garment returned to us, giving it a new lease of life and helping to reduce the volume of clothing ending up in landfill.

We take great care to use quality fabrics for all our ranges. Garment and fabrics are tested under carefully monitored conditions in accordance with recognised standards. Wash tests are used for colour fastness. shrink resistance and care label accuracy. Wear tests are undertaken to check the serviceability and longevity of garments.

LAUNDERING

Always refer to the care label before laundering and ensure the care label instructions are adhered to. Always wash dark colours separately. Fabric softeners and conditioners may prove detrimental to the performance of some garments.

GARMENT SHRINKAGE

Excessive shrinkage is primarily due to factors such as heat and major agitation during the wash cycle. Always wash as per the instruction as stated on the care label.

PILLING & BOBBLING

Abrasion and prolonged washing of garment with fabric softeners leads to fibre balls appearing on the surface of the fabric. Remove balls by mild surface brushing.

We strongly recommend washing inside out and not to use fabric conditioners in the wash.

TRIMS AND ACCESSORIES

Trims and accessories like zips, toggles, pocket linings and elastic cords are constructed for normal use.

COLOUR STAINING

Wash similar colour garments together. Do not leave damp garments together for any length of time.
